Q&A: How to Separate Household Garbage and Recyclables

Q1. How should spray cans be disposed?

A1. Empty the contents of the can and dispose the item as a recyclable material. When emptying the contents, make sure of your surroundings, and complete the task outside.

Q2. How should videotapes and/or cassette tapes be disposed?

A2. Videotapes/cassette tapes should be disposed as "Landfill Garbage" of the Incombustible Garbage category. However, if disposing items at the Recyclable Materials Collection Center, place the items in the blue baskets.

Q3. Is it possible to discard unassembled wooden furniture directly at the Clean Centre?

A3. Furniture containing screws, nails, glass or other artificial parts, or that exceed 5cm in thickness cannot be discarded at the Clean Centre. Furniture made entirely of wood can be discarded as oversized garbage, at the Clean Centre.

Q4. How should I dispose small rechargeable batteries or watch batteries?

A4. If disposing your items at the Recyclable Materials Collection Center, categorize them as "Hazardous Items". Small rechargeable batteries (lithium-powered) may cause fires, so please attach a piece of electrical insulating tape to the battery. You may also drop off your items at collection boxes at retail stores that sell batteries.

Q5. Can televisions and washing machines be discarded if they are unassembled?

A5. No. Televisions, air-conditioners, washing machines, refrigerators, etc are subjected to the Recycling Materials Law and must follow certain rules in order to be recycled. These items cannot be dismantled and must be properly disposed. For more information regarding the disposal, please check the back of this flyer.

How to Separate Household Garbage and Recyclables

Part 2

• Please utilize this handout along with the supplemental handouts: "How to Separate Household Garbage and Recyclable Materials" & "Garbage Collection Calendar"

• To anyone who doesn't know how to separate household waste, please contact Shinshiro City Hall's Environmental Department, check the municipality's official website, or check the Garbage Separation App, "San-R" ("Three R's").

Bear in mind the waste that you produce, don't take or accept more than you need, and reduce garbage as much as possible. Separating garbage and recycling will help reduce waste.

Basic Rules of Garbage Disposal

"Industrial waste" from businesses, factories, and agricultural facilities must not be disposed at standard garbage disposal facilities.

Regarding industrial waste, please see the "Industrial Waste Separation Guide" posted on the municipality's website.

Please note that "Industrial Waste" cannot be accepted at any of the facilities managed by

Garbage collection sites are managed by your district of residence.

Do not dispose your garbage at other garbage collection sites or recyclable materials collection centers.

Please take out your combustible garbage on the **collection day between dawn and 8:30AM.**

Take out your recyclable materials and incombustible garbage on the **days, times, and locations designated by your district of residence.**

Search with the garbage/recyclable material separation app, "San R" (Three R).

You can confirm information about garbage and recyclable materials. You can also search how to separate items, so please make use of this app. You can download the app using the QR code on the left side of this page.

Please sign up at the Clean Centre.

How to Separate Recyclable Items and Garbage that May Be Difficult to Categorize into their Appropriate Categories

●Items that Cannot Be Recycled

Roupas Tecidos	Items that Can Be Recycled	Items that Cannot Be Recycled
	Suits, pants, work uniforms, school uniforms, coats, sweaters, jackets, t-shirts, sheets, towels, futons, blankets (that have not been turned into kilts), etc. → Items that can be passed down in its current form.	Futons, zabutons, kotatsu futons, carpets, foot mats, door mats, bathroom mats, seat covers, gloves, belts, socks, underwear, handkerchiefs, pet items (pet clothing), wrapping cloth, etc.
Hard plastic	Items that Can Be Recycled	Items that Cannot Be Recycled
	Cassette tape cases, cd cases, wash basins, buckets, plastic toys (battery-powered items are to be categorized as "Small Household Electrical Appliances"), plastic containers (shampoo and soap bottles), tupperware, etc.	Snacks bags, cup noodle containers, mayonnaise tubes, PET bottles that cannot be cleaned, plastic wrap, etc. → "Combustible Garbage" PVC products (water pipes, rain gutters), polycarbonates (CDs, DVDs, sunglasses, glass lenses), planters that have soil left, etc. → "Landfill Garbage"

●How to Separate Combined Materials

Items with combined

If you cannot separate the cloth parts (**combustible garbage**) from the rubber parts (**Landfill garbage**) the item must be discarded as descartado como "**Landfill garbage**"

Items with Combined Plastic and Metal Material

Plastic parts and metal parts that can be separated should be broken apart, and then categorized separately. If the items cannot be separated, examine the proportion of plastic to metal, and if the majority of the item is made of plastic, categorize them into the "Hard Plastic" category.

●Size criteria

The maximum sizes for **metal**, **hard plastic** and **landfill garbage** that can be discarded are: **up to 30cm in length, or 100cm length IF it's up to 5cm thick.** Objects that surpass this measurements must be discarded as oversized garbage (Paid).

●Garbage that can be discarded at recycle centres

In small quantities, **non-combustible garbage (Landfill garbage)** can be discarded at your local recycle centre. The amount should be equivalent to **the contents of a shopping basket.**

※However, the item must also be up to **30cm in length, or 100cm length IF it's up to 5cm thick.**

Non-combustible garbage in large quantities (More than one basket) must be discarded as oversized garbage, in the proper collection centres. (Paid)

How to Dispose Items Subject to the Home Appliance Recycling Law

●Disposal Methods (Please follow the following)

	Method	Necessary Items
①	Ask furniture retail stores to pick up your items. ※Retail stores that you purchased your item(s) from have an obligation to pick up your items.	Advise authorized dealers or retail stores where you purchased your item(s).
②	Bring your item directly to the collections sites specified by the item's manufacturer.	Electrical Appliance Recycling Ticket(s)
③	Request your items to be carried to the designated collection site by the Environmental Department. ※If unable to be disposed at ① or ②.	Electrical Appliance Recycling Ticket(s) / Oversized Garbage Disposal Ticket(s) (Prices as listed below)

●The designated collection center
